and surrounding areas
for the past 3 years

Client Comments

Gary: Kevin has done a number of cupboard jobs for us. He has modified old cupboards, made new cupboards, designed and created a whole kitchen and crafted beautiful window seats. He is a perfectionist and his work is of an excellent standard. He works quietly when not using machinery and cleans up behind himself. His quotes are competitive and he is completely trustworthy. I gave him a copy of the key to my home.

Brenda: I was given Kevin's details by a close friend, and what a find. From beginning to end Kevin was the most professional, pleasant, and timeous contract I have ever had. I was most impressed with his delivery, assembly and general work ethic that I immediately commissioned Kevin to replace my main house kitchen cupboards. Once again a first class job was done. I have gone on to recommend his workmanship to anyone requiring cupboards.
