

PSCP Update – January 2017

GREAT NEWS

We are very pleased and proud to confirm that **PSCP phase 1** has now been handed over officially to PSCP from Pinewatch. The previous handover dates could not be met due to increases in year end work load and the arrival of the festive season.

On the 12th January 2017 at Pinewatch Place in Maitland, the PSCP committee met with Pinewatch management to witness the signing and hand over of the first phase of the PSCP project and at the same time the SLA (Service Level Agreement) was signed. This means that as per the original agreement, Pinewatch will be managing the operation and maintenance of the installed system for the next 3 years, starting from 01 January 2017. At the end of this 3 year period the operation and maintenance arrangement (SLA) will have to be re-negotiated.

PSCP now essentially owns the installed system hardware (cameras, poles, antennae, etc.) located outside of Pinewatch Place, which has been operational for a few months now while undergoing tests and adjustments and in some places receiving additional installations to cover unintended “gaps” in coverage. We note with thanks that Pinewatch have showed their generosity and commitment toward the successful conclusion of this phase.

PSCP Committee and Pinewatch management – signing and witnessing the Handover and SLA

(Front L-R) Chris Blatherwick, John Berry

(Back L-R) Hermann Schlenk, Patrick Pillay, Riad Davids, Elaine Gibb, Brian Watkyns

We, all Pinelands residents and businesses and visitors, really owe a huge **THANK YOU** to all the kind and generous donors who believed that a project like this was needed and who “opened their purses” so long ago in May 2014, to make it happen.

This now officially marks the start of the next phase “phase 2” which we urgently need to get funds for as quickly as possible in order to install the much needed PTZ surveillance cameras in certain “hotspots” in Pinelands.
